Tatkal Scheme and Discount Scheme - regarding**

(A) Revised Test Charges :

The Textiles Committee Laboratories located at various major textile centres spread across India offer testing services for various Chemical, Mechanical and Ecological test parameters to the textile trade and industry. Uniform test charges at all over India are collected as per the prescribed rates from the Customers. The test charges are revised from time to time in tune with the exigencies of time and cost requirements. The last revision of test charges for the various parameters was done during the year 2008 and the cost escalations over the last 10 years has necessitated a revision and accordingly the test charges have now been revised/rationalised with effect from 5th February, 2018 and the revised rate has been approved by the Board of the Textiles Committee in its 120th meeting held on 8th January, 2018. The different tests offered by Textiles Committee and their respective revised charges are uploaded in the website of Textiles Committee for ready reference of all the customers/stake holders (website : www.textilescommittee.gov.in).
